# WE WORK OUT WITH THE BEST

2nd place at the Arnold Strongman Classic 2023

Mateusz Kieliszkowski

## WHO WE ARE?

- one of the largest recyclers of used tyres in Europe
- manufacturer of the best quality RECYCLED RUBBER (RR) granule for rubber products. Thanks to our selective collection of tyres and innovative production line we make the purest RR granulate on the market
- the Rubtiler factory, located in the center of Poland, has a modern and automated production line for the production of rubber tiles and mats, which makes the brand the leader in global markets

## RUBTILER'S OFFER

- rubber surfaces and accessories for gyms, fitness rooms, and crossfit zones
- safe rubber tiles for playgrounds and outdoor recreation facilities
- flexible exterior architectural elements for urban areas, home and garden
- vibration insulating mats used in industry, construction, and the railway sector
- road infrastructure elements
- animal breeding surfaces

## WHY RUBTILER?

- a guarantee of the highest standards of production - monitoring of every stage, from tyre selection to tile shipment control
- modern technologies - the automated production line guarantees high repeatability of products and the highest quality on the market
- all products are subjected to laboratory tests and long-term strength and functional tests
- our products undergo the necessary examinations and have the required certificates: CFL and DFL (flammability certificates), HIC (fall safety certificate), TÜV Nord Certificate (antivir and bacteriostatic)
- easy and reliable installation of offered products
- possibility to mark and personalize products according to the Customer's project
- professional advice on the selection of appropriate assortment and after-sales service
- short delivery times

Take your gym to the next safety level,  
contact us to learn more.

## WHAT MAKES US DIFFERENT

At Rubtiler, we carry out complex recycling of used car tires – from their selection to the production of rubber components. This is made possible by one of the most advanced machineries in Europe, financed with EU funds between 2010 and 2013. We use only truck tires of well-known brands from Western Europe, which enables us to produce RR granule of the best properties and high quality. The multi-stage removal of contaminants leads to product purity of 99.9%, which distinguishes our products on a global scale.

## EVIDENCES

we focus on high quality, which is confirmed by such certificates as:

- REACH Declaration of Conformity
- ISO 9001:2015
- TÜV NORD Certificate Proven Product
- VOC EMISSION TEST REPORT Indoor Air Comfort GOLD® – VOC FREE
- technical specification EN 14041:2004/AC:2006
- acoustics – airborne sound insulation measurement PN-EN ISO 10140-2:2021-10
- acoustics – impact sound insulation measurement PN-EN ISO 10140-3:2021-10
- classification in the field of reaction to fire CFL-S1, DFL-S1, EFL
- HIC (Head Injury Criterion) up to 3.6 m
- Guarantee of the Highest Quality – Rubber Plates 5 kg, 10 kg, 15 kg, 20 kg

COULD YOU IMAGINE THAT YOUR GYM'S  
FLOOR AND BUMPERS, TOUCHED BY  
HUNDREDS OF HANDS A WEEK, CAN BE  
**SAFE FROM VIRUSES AND BACTERIA?!**

Rubtiler Vir & Bact Protect product has been certified as a TÜV NORD Tested Product.

**The answer is Rubtiler Vir & Bact Protect**

- **easier to clean and maintain**
- **sweat odour and stain reduction**
- **up to 90% less viruses and bacteria**

### VIR&BACT PRODUCTS

PRODUCT AVAILABLE IN OPTION

Our **ANTISHOCK SHIELD** solution is perfect for use in free weight areas due to the excellent impact and sound absorbing properties. **ANTISHOCK** tiles are most popular as for cross fit, commercial gym flooring, weight room tiles, under gym machinery, as 2nd-floor gym flooring, as mats for Olympic lifting and much more. This flooring provides superior protection to the surface underneath, as the rubber studs shield compress under pressure to reverse the weight hit from the surface.

## IMPORTANT FEATURES

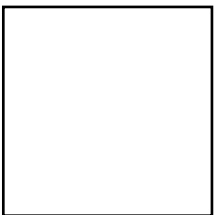

- anti-slip protection
- sound and shock absorbing qualities
- protection against injury
- surfaces STANDARD, SLICE, PREMIUM, OVERLAYER
- easy assembly (DIY)
- high repeatability
- VOC FREE
- fire resistance – EFL, DFL and CFL certificate
